Using the wiring diagram that comes with your remote start kit, wire the system into your vehicle. While each system differs, for the most part you are going to apply three diodes to isolate the three ignition wires, and tap it in at the ignition harness. Figure 7. Apply three diodes to three ignition wires and tap into ignition harness.

These are unique to RSNV S4 products that is the most advanced and practical for your Audi. For example, many manufacturers claim that they support BT 5.0, but it means only the hardware is capable but no software to use BT 5.0, but work 2.1 compatible mode. RSNV is the first manufacturer for Audi that offers full bluetooth library.

Cut 3, 2' pieces of wire and connect them to your switch. Cut the lite Green wire going to pin A8 a few inches from the connector on the LCM. Remove about 1/4" of insulation from the Pink A7 wire a few inches from same connector. Connect the wire from the center pin of your switch to the lite Green wire going to pin A8 of the LCM's connector.
