Beyond Belief The Ultimate Mind

A belief is an attitude that something is the case, or that some proposition about the universe is true. In epistemology, philosophers use the term "belief" to refer to attitudes about the world which can be either true or false. To believe something is to take it to be true; for instance, to believe that snow is white is comparable to accepting the truth of the proposition "snow is white".

The Core Belief Exercise A Core Belief is a belief we have about our self, other people or the world around us. These beliefs are very raw and were formed at an early age by what we experienced, were told and observed. They are our subconscious operating system. To efficiently move beyond our limitations, we can identify and shift these beliefs.
