Summary Changes  
in the Land: Indians**

Chapter 7 in Changes  
of the Land was one of  
the most important  
chapters of the book  
because it discusses  
the “intended”  
functions of European  
regulations on cattle,  
fences and agriculture.  
Although Europeans  
may not have intended  
for their livestock to  
drastically change the

by the Europeans, such as laying claim to the land. Through Cronon, the Indians appear naïve, often unaware of what participating in a European system entails. He writes, "The Indians, not realizing the full ramifications of what that market meant, and finally having little choice but to participate in it, fell victims too."
