"My passion for conservation drove me to become a ranger. I wanted to do my part as our ancestors have done in the safeguarding of Africa's oldest national park, Virunga, for future generations. The park, with all its biodiversity, is a source of pride for the planet. I want to protect it so that future generations can benefit and visit.

Re:wild - Biodiversity is the Solution | rewild.org

Willmott (1989) argues that it is legitimate to add a third understanding of community – that of attachment – as communities of place or interest may not have a sense of shared identity. Anthony P. Cohen's (1982; 1985) work around belonging and attachment is a great help in this respect.

So, understanding the impact of the technology is not only about predicting the future of technology, it is also about predicting the future of what we value, and these two considerations are of course mutually constitutive, as technologies are shaped by values, and at the same time, over time (especially generations), technologies shape values."

3. Humanity is at a precipice; its future is at stake ...

Nationalism is an idea and movement that holds that the nation should be congruent with the state. As a movement, nationalism tends to promote the interests of a particular nation (as in a group of people), especially with the aim of gaining and maintaining the nation's sovereignty (self-governance) over its homeland to create a nation state. Nationalism holds that each nation should govern ...
