My 850S came out of the box running low power (50 - 75w PEP), so I called the local ham radio dealer inquiring about service manual availability. Well they had them in stock, but at a price of \$50.00! Unbelievable! Kenwood wants fifty dollars for (in the continuing Kenwood tradition) a terribly organized, incomplete, and horrible reading manual!!!

Modifications for the Kenwood TS-570. Problem with the memories I bought last year a Kenwood TS-570D HF transceiver. After a few months of good working i got a problem : Everytime if i switch off the power i lost all the memories, including the value for the IF filter bandwidth (menu item 46) which is normally held even if you reset the transceiver!

KENWOOD TS-850: MODIFICATION FOR EXTERNAL KEYING, WHILE USING THE INTERNAL KEYS BY: N7EX (ex-N0DH), Dave Henderson. One of the minor draw backs to the TS-850 as a CW contest machine is the inability to use the internal keys in conjunction with an external keying circuit such as a personal computer or auxiliary memory keyer.

### **mods.dk -> Instruction, users and service manuals for Kenwood**

This modification has not disrupted any relay-timings or introduced stray reactance into the transmitter chain, so the transceiver should work at least as well as it did before the modification. Also note that the ATU has a by-pass relay actuated by the front panel switch - this was not indicated in the block diagrams for clarity.
