The Logic Of The History

The Logic of History reveals the rational basis for historians' descriptions, interpretations and explanations of past events. C. Behan McCullagh defends the practice of history as more reliable than has recently been acknowledged. Historians, he argues, make their accounts of the past as fair as they can and avoid misleading their readers.

Amazon.com: The Logic of History: Putting Postmodernism in ...

I short, the logic of history, when applied to the study of Jesus, means that the existence, momentum and direction of the early church are most plausibly explained by a powerful teacher who had a close relationship beforehand with his immediate circle, an influence radically reinforced by the confirmatory event of his resurrection from the dead.

This book provides a philosophical analysis of the reasoning appropriate to the history of ideas. It addresses three main questions: what sort of meanings do historians study? How can historians justify ...

The Logic of the History of Ideas by Mark Bevir, 1999 ...

The history of logic deals with the study of the development of the science of valid inference (logic). Formal logics developed in ancient times in India, China, and Greece. Greek methods, particularly Aristotelian logic (or term logic) as found in the Organon, found wide application and acceptance in Western science and mathematics for millennia.

History of logic - Wikipedia

The 17th century The Logica Hamburgensis (1638) of Joachim Jung (also called Jungius or Junge) was one replacement for the "Protestant" logic of Melanchthon. Its chief virtue was the care with which late medieval theories and techniques were gathered and presented.

History of logic - The 17th century | Britannica

Iran is a complicated and mysterious country and Tehran is more so. Activities, population and cultures have shaped a new and ever changing logic upon which people relate to one another without prior familiarity. This phenomenon, despite being problematic, expands and facilitates innovations and creativity.

Tehran - About Tehran

The Left and the Logic of History. Without Columbus and the other European explorers, the long-term process of colonial settlement would not have taken place and would not have produced the multicultural civilization we call the U.S.A.

The Left and the Logic of History

This paper provides a short summary of Mark Bevir, The Logic of the History of Ideas. Logic stands here as a subset of Wittgenstein's notion of philosophy as a matter of the grammar of our concepts. It studies the forms of reasoning appropriate to a discipline, rather than the material of that discipline.
